

Signs of Zodiac

Back in Town

I traveled the world, I traveled the sea
I traveled around, around to find me
But all I found was Syphilis and Jack
So keep your daughters, I'm back

Refrain:
I'm back for bad
I'm back in town

Some old new friends came lookin' around
They keep on telling me how they missed my sound
They keep on asking me how I spend my time
The whole day until nine

Refrain

Now this old new friend don't come around
No-one tells me how he misses my sound
The phone is quiet, nobody 's got time
The whole day until nine
